DETAILED ACTION

Allowable Subject Matter

Claims 22-25,28-32,35-37,39,40 and 42-51 are allowed.

The following is an examiner's statement of reasons for allowance:

The independent claims recite a very specific combination of steps to help facilitate electronic product ordering. There are many items, which must be in the user profile. A "cookie" is used to determine the user. This is specific data, which must be included in a new order. There must be an acknowledgement from the prescription distribution center with specific data. The acknowledgement has additional data added to it and is then transmitted to the user. An invoice is also generated to a medical insurance carrier.

The previously cited references of Kenny, Schena, Wallace and Suzuki do not teach all of these elements and it would be hindsight to combine many more references to meet all the limitations.

Mayaud et al. is a foreign reference, which teaches a prescription management system, but does not meet the full combination of the claimed invention.

Morrison et al. is a non-patent reference, which discusses some new companies and their new methods of creating online revenue. Several of the companies are online pharmacies, but they do not meet the full combination of the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 3627

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
